FOURTH ANNUAL REPORT  
OF THE  
Committee of Visitors  
OF THE  
GLAMORGAN COUNTY ASYLUM,  
To Her Majesty's Justices of the Peace,  
ASSEMBLED IN QUARTER SESSIONS,  
*To be held at Cardiff, on Tuesday, January 5th, 1869.*

---

IN compliance with the provisions of Act 16 & 17 Vict., cap. 97, sec. 62, your Committee have now to lay before you the following Report.

The Numbers on the books of the Asylum to-day are 198 males and 167 females, as against 180 males and 143 females at the close of last year.

The Admissions have been 116, as against 98 last year, the Discharges 44, as against 33, and the Deaths 30, as against 20.

Although the Admissions have been more numerous than last year, the Discharges and Deaths have also been greater, making the net Increase 42, as against 45 last year.

The Buildings generally are maintained in good repair. In the exercise of powers vested in them under the 38th section of the Act already cited, your Committee have this year expended the sum of £204 3s. 11d. in the erection, on the site and with the materials of the old farm Buildings, of a Farm Cottage of four rooms, with piggeries and out-buildings, which they deemed essential for the economical management of the land, and for the utilization of the large quantity of refuse from the Establishment, hitherto comparatively unproductive. The work has been done in a

substantial manner, and having been performed in a great measure by the inmates themselves, has involved an inconsiderable outlay.

It will be observed that the number of patients in the Asylum has now reached the utmost limit for which accommodation has been provided.

This contingency your Committee have for some time past foreseen, and it is a source of regret to them that the Court of Quarter Sessions has not, on their urgent reports, placed funds at their disposal to enable them to meet it. On this subject the Committee beg to point your special attention to the strong expressions used by the Visiting Commissioners in Lunacy in their Report annexed.

Both sides of the House being now full, it is imperative that additional accommodation be at once provided for females as well as for males. The addition to the Male Division already authorized by the Court does not meet this necessity, for it is impossible to increase either division by the conversion of rooms intended for the opposite side of the House, except to a very limited extent.

The Committee therefore again submit the plan prepared by Messrs. Martin and Chamberlain, their Architects, for the enlargement of the Detached Female Ward, so as to accommodate 36 additional patients, at an estimated total cost, including Fittings and Furnishing, of £2570.

Your Committee are now able to reduce the weekly payment for the maintenance of patients to 10/6.

The sanitary condition of the inmates continues highly satisfactory. The Deaths generally have been the result of the usual causes operating in establishments of this nature. Only three cases seem to call for special notice; in one of these, the death occurred while the man was at home under the care of his friends, but as his name was still on the Asylum Books his death is included in the obituary of the year. In each of these cases, public inquests were held, which resulted in a verdict exonerating the officers of the Asylum from all blame in connection with them.

Your Committee are happy to renew their expression of entire confidence in the Medical Superintendent, Dr. Yellowlees, to whose high intellectual training, professional skill, and

unceasing attention to the general interests of the Establishment, is due in the fullest sense its present satisfactory condition. He has been very ably supported by his Assistant, Dr. Pringle. The Chaplain and the other Officers have efficiently discharged the duties severally assigned to them, while the order of the House and the care taken of the patients bear witness to the general efficiency of the Attendants and Servants.

HENRY LYNCH BLOSSE,

Chairman.

December 17th, 1868.

# REPORT

## OF THE

### COMMISSIONERS IN LUNACY.

GLAMORGAN COUNTY ASYLUM,  
30th October, 1868.

UPON our visit, this day, we have inspected the Asylum in its several departments, made the Statutory enquiries, and seen all the Patients.

In reference to the changes in the Patients since the visit of our Colleagues, 19th June, 1867, and their present numbers, we have to report as follows :—

				Males.	Females.	Total.
Admitted	...	...	...	87	61	148
Discharged	Removed	...	...	27	28	55
“	of whom	Recovered		24	25	49
Died	...	...	...	28	5	33
Present Numbers				197	159	356

With the following three exceptions, the Deaths were from ordinary causes. (1) A man died “from exhaustion” after fractures of the ribs. (2) Another, a case of General Paralysis, died from suffocation while at tea in the Hall. (3) A third, while absent on trial, was found drowned in a disused shaft of a coal mine. The particulars of the above cases, on which inquests were held, were duly reported to our Board.

The sanitary state of the Asylum is good, the Patients

registered as under medical treatment, being 5 in the Male division and 4 in the Female. We found only four Men and one Woman in bed.

The latest Ward returns relative to Employment, yield the following results :—

MALES.		FEMALES.	
Garden and Fields	... 60	Sewing and Knitting	.. 59
Trades .. .. .	21	Laundry and Kitchen	.. 50
Wards & Airing Courts	69	Wards, &c. .. .	22
Total ..		Total ..	
<hr/> 150 <hr/>		<hr/> 131 <hr/>	

The attendance at Divine Service in the Asylum Church on the Sunday before our visit, comprised 115 Male and 83 Female Patients. Daily Morning Prayers are read before Breakfast in the Hall.

The instances of seclusion since the last visit have been very few. Three Patients only have been secluded during the present year, one on three occasions, and the two others only once each. One Male Patient only has, since the last visit, been subjected to restraint in any form, and that for medical reasons.

As respects the personal condition and demeanour of the Patients, we have satisfaction in reporting that we found them, without exception, suitably and well dressed, quiet and orderly. None made any complaints, and we were very favourably impressed by the care and attention to their wants and comforts shewn by the Attendants in charge.

The Asylum, internally and externally, is in most creditable order, and presents a cheerful and comfortable aspect. The Wards are well furnished and decorated, the walls of the Day Rooms being all painted below and papered above. The absence of Corridors, and the appropriation of several small rooms, originally designed for Attendants, as quiet reading rooms, contribute to the domestic character and aspect of the Wards.

The Beds are all of hair, and the bedding is good and ample.

The means of personal Washing are good and sufficient.

The Bathing arrangements are satisfactory, excepting that the supply of water is not sufficient to allow of every Patient having a fresh bath, which is very desirable.

The present weekly charge for maintenance is 11s.

The Patients are distributed as follows:—In the Main Building are 140 Men and 98 Women. The Workshop and Laundry detached Blocks contain respectively 59 and 61 Patients. The Patients in those Blocks take all their meals therein.

Of the inmates of the Main Building on the day of our visit, all but 25 Men and 23 Women, *i.e.*, 115 of the former and 75 of the latter, were assembled at dinner in the general Hall, their demeanour was most orderly, and the dinner was comfortably served.

The Staff of Attendants is as follows:—In the Male division are 15 ordinary Attendants, of whom one is assisted by his wife, and in the Female division, there are 12 Ward Nurses, and two Laundry maids. On each side also there are a Head and a Night Attendant.

The system of night watch continues to be effectively carried out, and to work very satisfactorily.

The Register compiled from the Daily Ward Returns applicable to all matters relative to the Patients, is in a most convenient form, and carefully kept.

The Male division of the Asylum, including a Dormitory properly belonging to the Female division of the Main Building, is now full, and there are only 8 vacant beds on the Female side.

In these circumstances, it is a matter of pressing importance that the additional Buildings on each side of the Asylum, of which the Plans have been submitted to our Board and approved, should be erected without delay. We regret to learn that, as respects the additional Female buildings referred to, the intentions of the Committee of Visitors have been, for the present, frustrated by the rejection of the Plans by the Justices in Quarter Sessions. We learn also, with much regret, that the Justices in Quarter Sessions have declined to sanction, or make the requisite grant for the erection, much needed, of Farm Buildings and a Brew House, &c., Plans for which had been carefully prepared by

Mr. Martin, the Architect of the Asylum, and adopted by the Visitors.

As a temporary expedient, the old Farm House has been pulled down, and a Farm Labourer's Cottage and Piggeries are in course of being erected by the labour of Patients.

We have to report with much approbation the Works which have to a great extent been, and are in progress of being, successfully carried out by the labour of the Patients, under Dr. Yellowlees' special direction and supervision, in the way of embanking and straightening the course of the river, and other works, whereby amongst other advantages about 6 acres of unproductive "*gorse*" land on the further side of the river have been reclaimed and brought into cultivation.

R. W. S. LUTWIDGE, } Commissioners  
ROBERT NAIRNE, } in Lunacy.

# ANNUAL REPORT

## OF THE

### MEDICAL SUPERINTENDENT.

---

GENTLEMEN,

I have the honour to submit my Annual Report for the year 1868, with the usual Statistical Tables.

	Males	Females	Total
On 1st January, 1868, the Asylum contained ... ..	180	143	323
And there have been Admitted during the year ... ..	68	48	116
So that the total number under treatment has been ... ..	248	191	439
Of this number, there have been Discharged ... ..	26	19	45
And there have Died ... ..	28	7	35
So that there remained on 31st December, 1868 ... ..	194	165	359
	248	191	439
Net Increase during the year.....	14	22	36

The *Admissions* have been 18 in excess of those of last year. They include 9 *Re-admissions*. A large proportion of the new cases have been of an unfavourable character, only about 30 per cent. affording reasonable prospect of Recovery. Although the Admissions have been so numerous, the net Increase is 9 less than last year, by reason of the greater number of Deaths and Discharges.

Of the 45 patients *Discharged*, 38,—22 males, 16 females—had *Recovered*. The proportion of Recoveries to Admissions is nearly 33 per cent.

The Discharges include a patient who escaped; he laboured under Recurrent Mania, and during the intermissions much liberty was allowed him; this privilege he abused by absconding from the grounds, and not having been brought back within the statutory period he was discharged as the law directs.

There have been 35 Deaths during the year—28 males, 7 females. The proportion of Deaths to the average number resident is about 10 per cent. This is a higher percentage than in any previous year, although still rather under the average mortality of County Asylums; the increase is partly the result of the exceptionally low mortality of the last three years, viz: 5.4 per cent. on the average number resident; it was also partly caused by the hopeless physical condition of a number of the cases admitted; these included four patients above 70 years of age, three of whom died within the year.

In one case of General Paralysis, death occurred from suffocation, while the patient was at tea, the act of swallowing being so imperfect from the paralysis that the food passed into the windpipe. In another case of General Paralysis, death was hastened by accidental injury to the chest, from the patient overturning the bedstead on himself in his excitement.

In both these cases Inquests were held, and the Asylum exonerated from all blame in connection with them.

The Obituary includes a death which occurred after the patient had returned home, but while his name was still on the Asylum Books. He was found drowned in the shaft of a disused coal pit, which he passed daily in going to and from his work. An inquest was held at the village where he lived, when a verdict of "Found drowned" was returned, there being no evidence as to how he got into the pit.

There is too much reason to fear that this man committed suicide. He had manifested suicidal tendencies before admission, and was at first very gloomy and dejected. This condition gradually passed off, and he made a very satis-

factory recovery ; he worked regularly in the Blacksmith's Shop, was allowed the freedom of the grounds on parole, and seemed perfectly well. He continued well for such a length of time that his discharge could no longer be withheld, but every possible precaution was used in granting it ; he was allowed repeatedly to spend the day at home before finally leaving the Asylum, and his name was retained on the books with his own frank concurrence, in order that if his gloomy thoughts returned, he might come back to the Asylum at once, which he said he would gladly do. Everything seemed in his favour, he had resumed work again, and was doing very well, when a trifling unpleasantness about a fellow-workman appears to have revived the former morbid feeling that he was "in the way," and the old shaft at once tempted to the gloomy purpose, and afforded fatal facility for its execution. This case illustrates strikingly the sudden recurrence of suicidal impulses, a danger against which the utmost precaution cannot always guard ; it is a matter for great thankfulness that no case of suicide has yet occurred in the Asylum.

The general health of the Inmates has been remarkably good during the year, and there has been no epidemic of any kind. There have been of course many anxious and difficult cases, but some of these have been, as is usual, most satisfactory and gratifying in their termination.

As to treatment and general management I have nothing new to report. Occupation and Amusement continue to receive due attention, as most important means of treatment. The Amusements have been materially aided by the formation of a Brass Band ; it includes patients as well as attendants, and is a source of much enjoyment.

A great deal of out-door work has been done by the patients during the past year—particularly in embanking and straightening the river Ogmore, which every winter threatened to overflow the kitchen garden, and very frequently flooded the grass lands. For this important work the dry summer was peculiarly favourable ; the most difficult part of the embanking has now been accomplished, and about 6 acres of waste land have been secured from floods and brought under cultivation.

A Farm Cottage, Piggeries, and Out-buildings, have at length been erected at the old farm ; this long delayed and much needed addition to the Establishment has been made by the patients and the Asylum staff, with but a little assistance in the skilled labour.

As anticipated in my Report for last year, the Asylum is now full ; the total number of patients for which accommodation is provided, viz : 365, was reached before the close of the year, and the only spare beds are those obtained by discharges or deaths. The delay in the erection of the New Buildings is therefore greatly to be regretted ; meanwhile of course accommodation must be obtained for the surplus patients, and the expedient of boarding them out at other Asylums is at once costly, inconvenient, and unsatisfactory.

To Dr. Pringle, and the Officers of the Asylum, my best thanks are again due. I also acknowledge with pleasure the efficient manner in which, with few exceptions, the Attendants and Servants have discharged their duties.

I beg to renew my earnest thanks to the Visitors for the consideration with which all my suggestions are received, and for the continued confidence and approval with which they honour me.

I am, Gentlemen, faithfully,

Your obedient Servant,

D. YELLOWLEES M.D.

REPORT  
OF  
THE CHAPLAIN.

---

GLAMORGAN COUNTY ASYLUM,  
BRIDGEND, 12th Jan., 1869.

GENTLEMEN.

The time has again arrived when it becomes my duty to lay before you a Report of the state of affairs in my department during the past year. As my duties from day to day are duly chronicled in my journal, which is submitted to the Committee at their monthly meetings, it is unnecessary for me to enter into any lengthened details.

The Religious Services have been conducted without any interruption, and I am glad to state that the same devout behaviour, to which I have had occasion to refer in some of my previous Reports, still continues to prevail.

The Holy Communion has been administered six times during the past year. The musical portion of the service is creditably performed, and the attention paid to it by some of the Attendants is worthy of commendation.

In my visits to the wards, I endeavour to promote cheerfulness and contentment among the patients, paying special attention to those of the sick, who are in a proper state of mind to derive comfort from my ministrations; and my experience among them confirms the opinion which I have all along entertained—that religion has a powerful influence

for good over many of the insane, though on some occasions, when their fits come on, it seems to lose its effect for a time. Some patients who are usually quiet and religiously disposed, will, in their sudden fits of excitement, commit acts of violence and destruction without any seeming provocation. A case of this description came under my notice very recently. A female patient, who had been for some time a regular communicant, in a fit of passion, broke several windows, and was removed to another ward. When I spoke to her about her change of abode she gave me a full account of the occurrence, and expressed her regret for what she had done.

The same propensity for destroying books, which I had to regret in my last Report, continues, and seems unavoidable in Asylums, so that the number of undamaged books in the Library is now small. To put a stop to this destruction, a plan has been proposed by the Medical Superintendent, and will be shortly carried into effect, by which the destructive patients will, in future, be prevented from having access to the books, except through the Attendants.

A weekly entertainment, consisting of Readings and Music, has been commenced this winter, and hitherto has been well received by the patients. With our Brass Band, which has now attained a considerable degree of efficiency, we are able to provide an amusing entertainment without seeking any extra-mural assistance.

To the Medical Superintendent and Dr. Pringle I have to tender my best thanks for their unvarying courtesy and kindness, as well as for the cordial assistance which they have given me from time to time.

I have the honour to remain,

Gentlemen,

Your obedient Servant,

CHARLES JONES, B.D.

Saturday ...	8	$\frac{1}{2}$	1	5...Pea Soup	...	4	...	8	$\frac{1}{2}$	1

All Working Patients, both males and females, receive 4oz. Bread,  $1\frac{1}{2}$ oz. Cheese, and  $\frac{1}{2}$ pnt. of Beer, as Luncheon.

The Meat is Beef, Mutton, Veal, or Pork, as may be convenient. It is carved by the Attendants in the Dining Hall, and two kinds of Vegetables are always given along with it. Fruit Pies or Puddings are frequently given during Summer.

The Tea is infused in Bulk. The Allowance for each Patient is  $\frac{1}{9}$  oz. Tea, and  $\frac{1}{2}$ oz. Sugar per Meal, and 1 pint of Milk weekly.
